

There's only one question on this iQ test: Where'd they hide the switch?

You've heard the buzz about IP consoles, and you love all the things they can do. Only one thing held you back: you figured you'd have to call Mr. IP Genius just to plug it in. Then you saw iQ, and everything changed. Axia deep-sixed your switch configuration worries by putting an Ethernet switch right into the console. Mixing engine, power supply, I/O, and a built-for-broadcast switch all in one neat, fan-free rack unit. There's zero switch configuration, zero finger-pointing from tech support, zero "kinda-maybe" compatibility issues. And only Axia does it.

iQ really passes the test. You'll be able to send audio instantly to any studio. Eliminate distribution amps, punch blocks, patch bays, sound cards — and that rat's nest of wire in the ceiling. Control everything with a browser, even over the Internet. Connect to scads of Livewire-ready broadcast gear with just an Ethernet cable. Solder? What's that? Yeah, building this studio will be more fun than a bucket of ping-pong balls on top of the News booth door. You pull the trigger and smile as you imagine the first of many weekends without a 3AM phone call. Smart guy.

» Rugged, super-duty power supply with optional fully-redundant backup. No wall-warts on Axia gear.

» Plenty of professional, balanced mic, analog, AES and Livewire I/O in a fanless 3RU chassis.

» Beefy heat-sinks look cool and keep cool - no noisy fans here.

» Built-in Ethernet switch lets you network devices and studios easily.

» Two Telos DSP hybrids with DDEQ, wideband AGC and Advanced Echo Cancellation. Phones never sounded so good.

» Nobody does broadcast phones better than Telos. And Telos builds the iQ6 exclusively for Axia. This'll get 'em talking.

» High-resolution OLED meters with VU & PPM ballistics and peak hold. Switchable displays let talent meter 2, 3 or 4 buses at once.

» 12-key dialing pad lets talent place calls without ever taking their eyes off the board.

» Push and rotate Options control to select source, adjust pan, trim gain and more.

» Rugged machined aluminum surface has anodized finish and markings that can't rub off. Backed with our 5-year warranty.

» Silky-smooth, side-loading 100mm, conductive-plastic faders feel great.

» Keep your eyes on the prize: Telco section OLEDs integrate hybrid control right into the board.

» Join multiple iQ frames with included hardware. It's desk-mount, so no need to cut the counter.

» Time-of-day clock can slave to your NTP server. Event timer has manual or auto-reset option.

» Avionics-grade switches with LED lighting.

» OLED source / options display with audio confidence meter on every fader. They're sharp as a tack.

» Separate selection and volume controls for guest studio and control room monitors.
